

FAASTeam presents:

# **IMC Club Monthly Meeting at PWK - Ryan Jaros - Chicago Approach - Insider edition**

**IMPORTANT:** This is a hybrid in-person/remote participate meeting with separate registrations. Register here only if you are going to attend in-person. If you are planning to attend remotely, please follow this link for the online meeting [https://www.faasafety.gov/SPANS/event\\_details.aspx?eid=106619](https://www.faasafety.gov/SPANS/event_details.aspx?eid=106619)

The September IMC Clubs meeting brings Chicago Approach controller, Ryan Jaros, back to the frequency once again. Ryan will moderate a discussion about IFR-related scenarios in and around the Chicago Class B as well as field questions from our members about IFR flight from a controller's perspective, but he is one of the special ones who is also a pilot. If there was something that you had wanted to do but didn't know how to request it, when the best time, or maybe you just want to learn more about Air Traffic Control and how they make their decisions. Join us to learn everything you wanted to know about Chicago's Air Traffic Control system.

Speaker bio:

Ryan Jaros is an Air Traffic Controller at the C90 TRACON (or Chicago Approach, as we know it) in Elgin, Illinois. He began his career working as a controller in Miami, Florida, in 2007. Ryan is also a private pilot.
